#### **DETAILED ACTION**

#### Election/Restrictions

Applicant's election of Group 54, Figure 72 and claims 66, 77-79,81-82,84-88,90,93-94,97-98,102,105-111,116,119,126-131,134,137-138,141-146,161-165,168-170,173,178-185 is acknowledged. Because applicant did not distinctly and specifically point out the supposed errors in the restriction requirement, the election has been treated as an election without traverse (MPEP § 818.03(a)).

Claims 67-76, 80, 83, 89,91,92,95,96,99-101,103-104,112-115,117-118,120-125,132-133,135,136,139,140,147-160,166,167,171,172,174-177 have been withdrawn from further consideration pursuant to 37 CFR 1.142(b), as being drawn to a nonelected species, there being no allowable generic or linking claim. Applicant timely traversed the restriction (election) requirement in papers filed November 5, 2004.

#### **Specification**

The attempt to incorporate subject matter into this application by reference to patent applications as stated in paragraph [0013] is improper because essential material may no longer be incorporated by reference to an unpublished pending applications 37 CFR 1.57(c).

### Claim Rejections - 35 USC § 112

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the

Art Unit: 3632

art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims 66, 77-79,81-82,84-88,90,93-94,97-98,102,105-111,116,119,126-131,134,137-138,141-146,161-165,168-170,173,178-185 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. The claimed sliding and pivoting of the component support mechanism associated with the elected embodiment of figure 72 is not discussed in the specification. There is no indication as to whether the component support mechanism of elected figure 72 is associated with any of the other plurality of embodiments of component support mechanism discussed or is it a component support mechanism of another type. The specification merely provides a general discussion of the main components of the furniture support components and its components of elected figure 72. Consequently, no meaningful rejection can be given to the elected claims associated with the elected figure 72.

## Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Korie H. Chan whose telephone number is 703-305-8079. The examiner can normally be reached on Monday - Thursday.

Application/Control Number: 10/736,804

Art Unit: 3632

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Leslie Braun can be reached on 703-308-2156. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
